

ACEEE Updates Website and Launches Smarterhouse.org

June 1, 2015

AMERICAN
SOLAR
ENERGY SOCIETY

The American Council for an Energy-Efficient Economy (ACEEE) celebrates its 35th anniversary this year. To commemorate that milestone, the organization has updated its website, aceee.org.

It has also expanded its popular consumer resources section and given it its own website, smarterhouse.org. Besides offering advice on what options to consider when upgrading or replacing home appliances, SmarterHouse can help home- owners and renters evaluate energy efficiency improvements that fit their budgets and pay dividends in energy savings.

These improvements follow the redesign of greencars.org, ACEEE's vehicle ratings site, where all of the ratings are available subscription-free.
